# Impact of COVID-19:

## ■ Cancelled:

- ❑ In-person Outreach,
- ❑ In-person Education
- ❑ Health Screenings,
- ❑ Vaccination,
- ❑ Linkage to Care Events.

- Plans to keep our staff working from home.
- Some staff members cannot keep their regular hours due to home schooling children and caring after elderly parents (from senior center/home).

# We are working on:

- Checking in with HBV positive individuals during this pandemic on their status of care, retention of care, offer COVID-19 referral support services and Census 2020.
- Research, identifying new target populations and locations.
- Plan virtual education Webinars with partners.
- Increase Social Media Presence.
- Strategic plan to add an extra layer of service to include TeleHealth.

# May Hepatitis Awareness Month

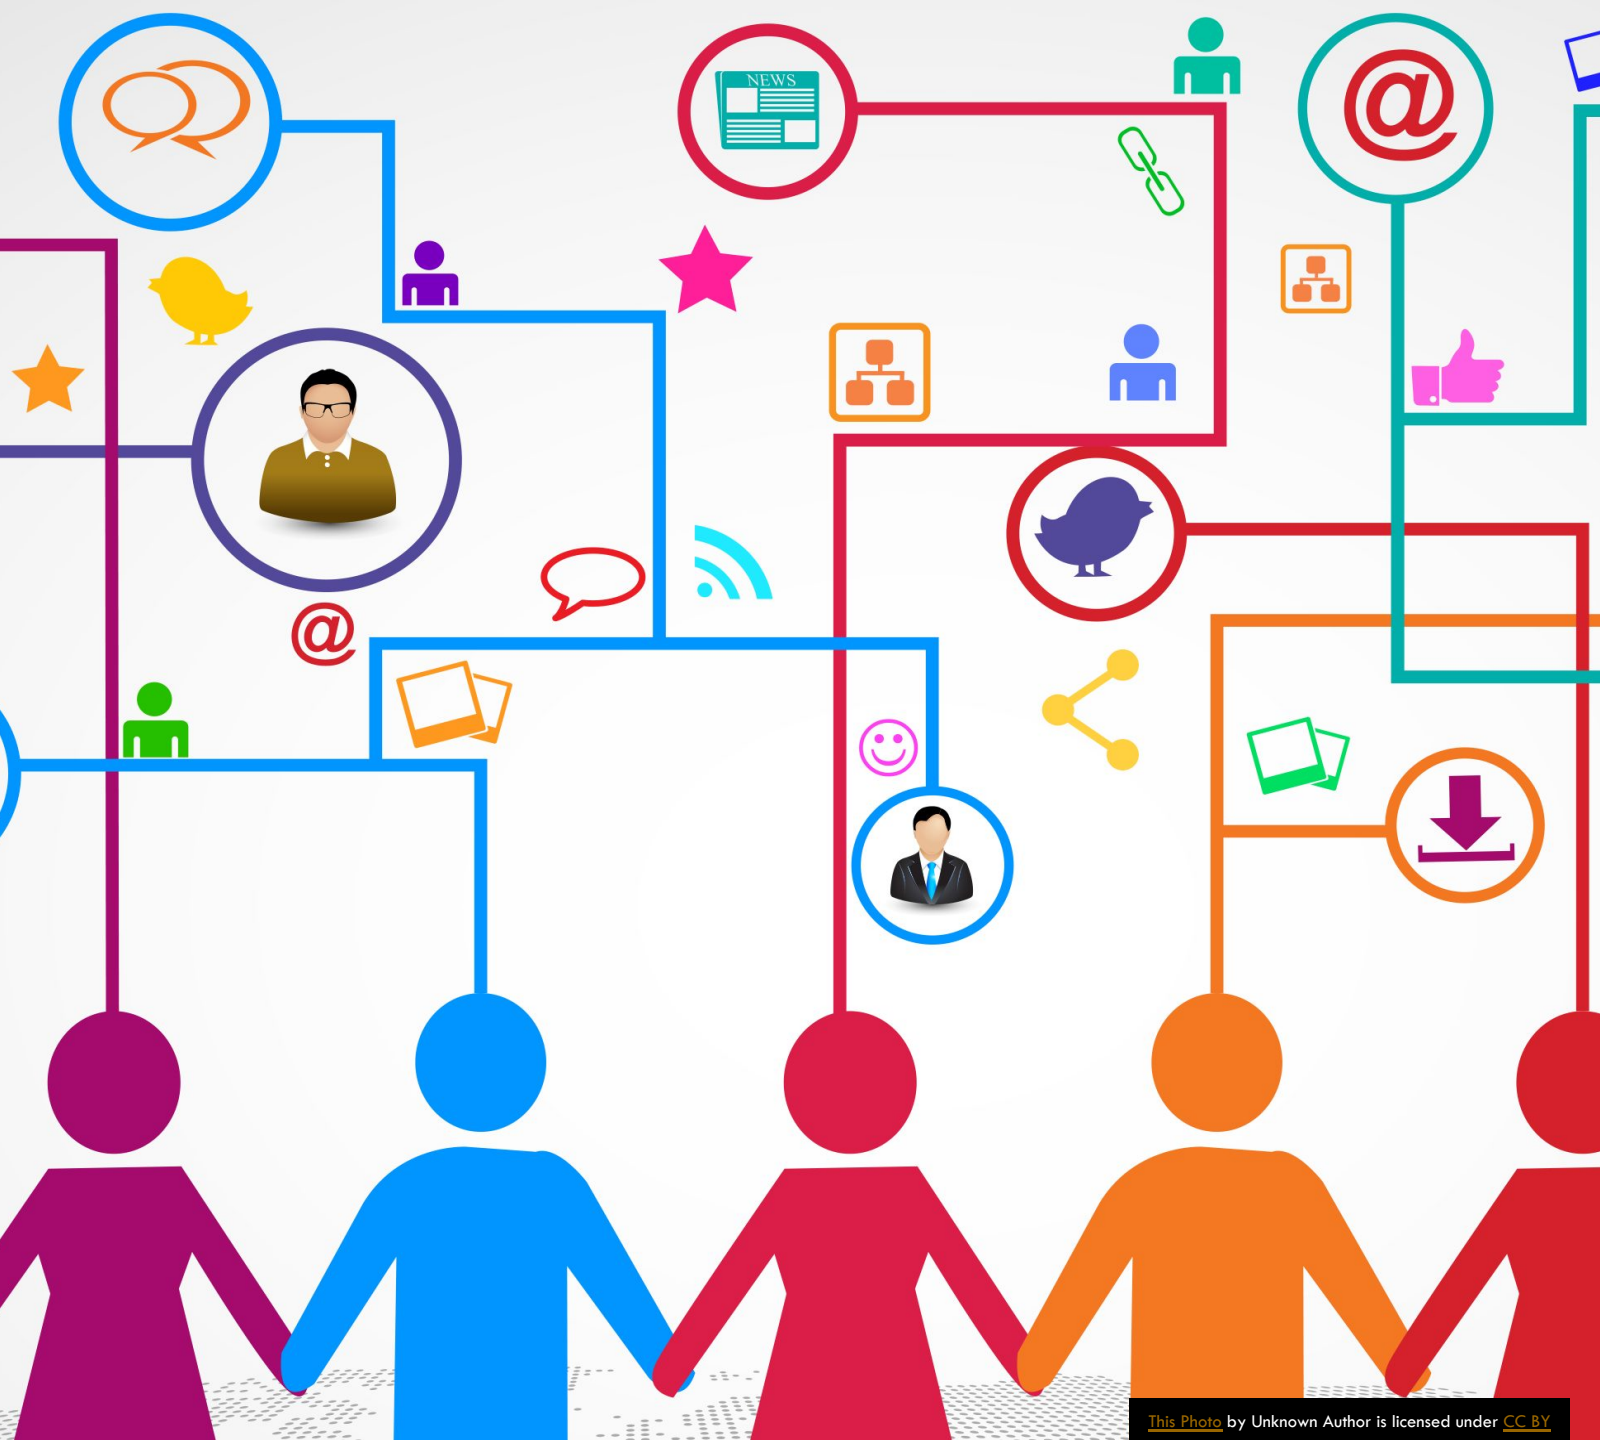

- **Social Media: Viral hepatitis & COVID-19:**

Using CDC, WHO, WHA and HBI information on the impact of COVID-19 on people living with viral hepatitis.

- **May 19: Hepatitis Testing Day:** On Social Media: we will provide Free viral hepatitis screening; calling in on a dedicated phone line; in-take; risk assessment; provide voucher to have the test done at a partner clinic; Labcorp service centers, in-person screening event when the pandemic is over.

- **#KnowHepB Campaign:** We like to Thank CDC for featuring HBI-DC in May!
