

YOU'RE INVITED!

Congressional Briefing on Viruses and Related Cancers in Minority Populations

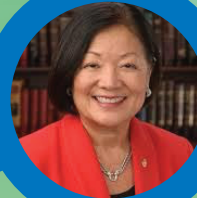

Tuesday, December 13, 2016
12:00 - 1:30 p.m.

Russell Senate Office Building, Room SR-325
Lunch will be provided.

Human papillomavirus (HPV), hepatitis B and hepatitis C can cause several types of cancer, and some populations have higher rates of these viruses and/or related cancers.

This briefing will examine the impact of viruses and cancer on the African-American, Asian and Hispanic communities in the U.S., with a focus on vaccination and treatment as proven cancer prevention methods.

Senator Mazie Hirono
D - Hawaii

Chari Cohen, DrPH, M.P.H.
